

Orlando FSDO FAAST Team presents:

Escape from your paradigm - Try an Unusual Approach

The term "Unusual Approaches" conjures up images of Aspen, CO; Bozeman, MT; Jackson Hole, WY; and just about every airport in Alaska. But unusual approaches are just as common in places like Baltimore, MD; Boston, MA; New York, NY; and even Palm Beach, FL (KLNA.)

They're everywhere, and they can turn a standard approach into a head scratcher at the most inopportune time. In our Unusual Approaches webinar presented by representatives of a major chart manufacturer, we'll talk about the terrain, obstacles and airspace designs that turn standard approaches into the unusual. We'll show you how to break down several unusual approaches, the keys to planning and navigating them successfully, and give you the kind of confidence that will make a straight-in approach paradigm to 200 and 1/2 seem downright easy. Bring your iPad with Flight Planning/Chart Aps to view the approaches we'll discuss.

Come join the discussion with your fellow aviators and learn to be a safer IFR pilot by understanding these unusual approaches. This seminar will offer you 1 Knowledge Credit (Basic, Advanced, or Masters level) for your next WINGS phase and will serve as the monthly IMC Club meeting. Your opinion is valuable to other pilots with less

Event Details

Mon, May 16, 2016 - 19:00 EDT
Vigilante Room, Sanford Airport
(KSFB)

1200 Red Cleveland Blvd., Sanford,
FL

Vigilante Room at Orlando Sanford
Airport

Sanford, FL 32773
